

BASKETBALL

YEAR 5

KEY SKILLS

Dribbling
Passing
Linking dribbling and passing with accurate footwork
Marking
Intercepting
Shooting

PRIOR LEARNING:

- Dodge to change direction easily
- Travel with an object whilst running - dribbling with hands,
- Use a range of passes and techniques to send and receive accurately
- Shoot a ball into targets (hoop, basket) often accurately
- Able to mark a player closely
- Able to mark a space with some effect
- Use different tactics to keep possession and get into positions to shoot.
- Make good decisions when and where to pass and run.

Identifying
Describing
Explaining
Analysing
Decision making
Knowledge of rules and tactics

LEARNING INTENTIONS:

- ✓ Can I improve dribbling skills?
- ✓ Can I develop passing and dribbling skills further?
- ✓ Can I link passing and dribbling skills under pressure?
- ✓ Can I improve my ability to defend a player?
- ✓ Can I develop shooting skills?
- ✓ Can I identify specific things in a game and talk about how well they are being done?

Cooperating with partner and groups
Playing in different teams
Taking on role of attacker and defender
Analysing self and others
Perseverance to beat personal bests

ASSESSMENT CRITERIA:

BRONZE	SILVER	GOLD
Children can dribble the ball whilst looking forward and keeping ball at waist height with dominant hand	Children dribble with control at jogging speed and choose effectively when it is appropriate to dribble in games	Children dribble with good control into suitable spaces to support their team making limited mistakes such as double dribble
Children dribble and pass with some control using mainly chest passes and bounce passes.	Children often use a variety of passes and make suitable decisions on when to dribble and when to pass	Children dribble and pass with control under pressure and can use 3 different types of passes successfully
Children can sometimes link dribbling and passing together abiding by rules	Children link dribbling and passing often without breaking rules	Children link passing and dribbling together to progress the ball forward showing good awareness often at speed
Children can mark a player by staying close in the defensive stance	Children can mark a player by staying close and shadowing movements causing them problems.	Children mark a player when they have and haven't got the ball in different ways to cause them problems often intercepting passes
Children remember some of the teaching points to perform a set shot but do not always hit their target	Children often use the correct amount of power when shooting and often hit the backboard/rim	Children consistently perform set shots using correct technique, often successful from different distances
Children can look for specific things in a game and describe in simple terms how well they are being done.	Children can look for specific things in a game and explain how well they are being done	Children can look for specific things in a game and explain how well they are being done using technical language

[illegible]

LEARNING OBJECTIVE:

Can you improve dribbling skills?

RESOURCES:

Balls 1 between 2

ASSESSMENT CRITERIA:

BRONZE

Children can dribble the ball whilst looking forward and keeping ball at waist height with dominant hand.

SILVER

Children dribble with control at jogging speed and choose effectively when it is appropriate to dribble in games.

GOLD

Children dribble with good control into suitable spaces to support their team making limited mistakes such as double dribble.

WARM UP

Pairs numbered 1 and 2. 1 leads, the other follows at jogging speed. Change roles on whistle. Encourage changes of direction. Repeat with dribbling a ball. Stretching hand/eye coordination with ball.

- Full arm circles whilst holding ball - Figure of 8 between legs - Round the world feeding ball from 1 hand to the other around waist - Facing partner - both pushing ball with straight legs then with 1 leg in front of the other.

MAIN ACTIVITY

TASK 1 - 1 ball each or 1 x attacker dribbling ball around area. Partner to act as a 'Passive defender' (shadowing attacker with movements no steal) Repeat changing roles encourage key teaching points;

- Look forward
- Ball at waist height
- Push down into ball with pads of fingers

TASK 2 - Discuss dribbling rules such as double dribble and travelling. Repeat task above attempting to avoid travelling or double dribbling when changing direction, turning, avoiding others. Highlight common mistakes (eg, catching the ball when turning and then dribbling again)

Double dribble – bounce, catch and bounce ball again or dribble 2 handed.
Travelling – Moving with the ball without bouncing it.

LEARNING OBJECTIVE:

Can you improve dribbling skills?

RESOURCES:

Balls 1 between 2

TEACHING POINTS:

Look forward, ball at waist height, push down into ball with pads of fingers.
Bend knees and keep on balls of feet.

LESSON KEYWORDS:

Possession
Double dribble
Travelling

MAIN ACTIVITY

TASK 3 - Each child with basketball dribbling inside designated area. Teacher to delegate set number of defenders. Defenders attempting to steal ball or force attackers to make a mistake by losing control of ball. If ball is stolen or double dribble/travelling occurs the attacker must take ball outside of coned area and continue practicing dribbling around perimeter.

TASK 4 - 3 v 1 in grid. Attackers attempting to pass and dribble ball keeping possession. Defender attempting to pressurise the attack to force a mistake such as double dribble or forcing ball out of grid. Encourage dribbling into space. Regularly switch the defender.

Travelling around inside grid, gradually getting slower.

On the call of
1: Touch 1 hand on floor
2: 2 hands on floor
3: Change direction

Discuss how did dribbling support your team keeping possession of the ball in your games?
Is it always useful?

 **Made easier:** less emphasis on double dribble more emphasis on control and following T.P's above. Walking or jogging speed.

 **Made harder:** travelling faster, more focus on abiding by rules, attempt to use non –dominant hand too.

LEARNING OBJECTIVE:

Can you develop passing and dribbling skills further?

RESOURCES:

Balls 1 between 2, cones

ASSESSMENT CRITERIA:

- BRONZE** Children dribble and pass with some control using mainly chest passes and bounce passes
- SILVER** Children often use a variety of passes and make suitable decisions on when to dribble and when to pass
- GOLD** Children dribble and pass with control under pressure and can use 3 different types of passes successfully

WARM UP

Children to begin by jogging around counting individually how many gates (2 cones) they travel through.

Development:
Change direction on whistle
Cannot travel through the same gate as someone else at the same time.
Attempt to beat personal best.
Stretching and hand eye coordination tasks with 1 ball
Lesson continued on next page between 2.

MAIN ACTIVITY

TASK 1 - Passing Gates - Children to work in pairs to pass the ball between their cones. Differentiate by distance between cones and players and the type of pass you want them to perform.

- Chest pass (Ball held in chest, hands spread, elbows bent then extended, step forwards, push towards partners chest)
- Bounce pass (Repeat above but push down to floor $\frac{3}{4}$ of the distance between you and partner)
- Javelin/shoulder pass (Hold behind ball with dominant hand and side of the ball with other hand especially if using bigger balls, ball taken back over shoulder, sideways on, step forwards and release with extended arms)
- Overhead pass (ball in 2 hands over head, facing target 1 foot in front of other, bring ball back with bent elbows then release with extended arms)

Discuss T.P's when performing the different passes. Discuss whether they are used over short or long distance in games.

.After 5 successful passes the child in possession dribbles ball around partner and back to their own place to repeat.

LEARNING OBJECTIVE:

Can you develop passing and dribbling skills further?

RESOURCES:

Balls 1 between 2

TEACHING POINTS:

See lesson 2 slide 1 for throwing TP's
Keep eyes on the ball when receiving the ball, use hands as a target. Focus on accuracy over power.

LESSON KEYWORDS:

Chest pass
Bounce pass
Javelin/shoulder pass

MAIN ACTIVITY

TASK 2 - 3 v 1 - in small grid, attackers attempting to pass and dribble ball to make 8 successful passes in a row without making a mistake or defender intercepting ball. Development: Dictate what passes can be used only. Discuss what passes are used and when.

TASK 3 - 3 v 1 - Dictate an end line for the attackers and an end line for the defender. Attackers attempting to pass and dribble to stop ball on end line. Defender attempting to intercept ball and dribble ball to their end line. Regularly swap defender.

Children to form a circle inside grid. Jogging on spot whilst passing ball accurately around circle.

Discuss what passes you used in the games and when. Discuss why certain passes were used over others.

 **Made easier:** reduce distance between pairs, increase distance between cones. Less focus on double dribble/travelling.

 **Made harder:** dictate what passes to be used only. Stronger focus on no double dribble or travelling.

LEARNING OBJECTIVE:

Can you use passing and dribbling skills under pressure?

RESOURCES:

Balls 1 between 2,
cones, bibs.

ASSESSMENT CRITERIA:

BRONZE

Children can sometimes link dribbling and passing together abiding by rules.

SILVER

Children link dribbling and passing often without breaking rules.

GOLD

Children link passing and dribbling together to progress the ball forward showing good awareness often at speed.

WARM UP

Create 1 big circle using cones. Children to jog/sidestep/cross over step etc inside circle. Teacher to call out a colour and children move towards correct colour.

Development – teacher to add an exercise that they need to perform when they get there i.e. star jumps, burpees, squat jumps, mountain climbers, ski jumps etc.

MAIN ACTIVITY

TASK 1 - Passing out - Remaining in circle. Children to be in pairs, 1 ball between 2. Player 1 to dribble around inside the circle. Player 2 to wait outside the circle on teachers command player 1 must look for partner before passing out and swapping places. Encouraging accurate passing when in a suitable position.

TASK 2 - Development: After pass is made by player inside circle they must run and touch 1 of the cones marking the circle before taking partners place as this encourages movement off of the ball.

TASK 3 - How many gates? - Set up a large number of gates of 2 cones of the same colour fairly close together. Children to pass through 1 gate and then whoever receives the ball must dribble to another gate. Their partner must travel with them and then stand opposite their partner at chosen gate to receive the next pass.

Lesson continued on next page

LEARNING OBJECTIVE:

Can you use passing and dribbling skills under pressure?

RESOURCES:

Balls 1 between 2, cones, bibs.

TEACHING POINTS:

Keep eyes on the ball when receiving the ball

Focus on accuracy over power.

Look forward, ball at waist height, push down into ball with pads of fingers.

LESSON KEYWORDS:

Double dribble
Travelling
Accuracy

MAIN ACTIVITY

TASK 4 - Development – Add in a number of pairs as defenders to try and force pairs to make a mistake. If a mistake is made the ball is given back and the game is resumed.

Repeat avoiding double dribble/travelling and attempt to beat personal bests.

TASK 5 - 3 v 3 In 10m x 10m approx. grid. 3 attackers versus 3 defenders. Basket scored when ball is caught on end line by 1 of the players. Game restarts by opposing team from back line.

COOL DOWN

Gears travelling at speeds dictated by teacher gradually getting slower.

Recap the main rules when dribbling and moving in Basketball.

Discuss and recognise own and other strength's.

 **Made easier:** stand closer to partner at gates. No active defending only passive.

 **Made harder:** encourage dribbling at faster speeds and using non dominant hand, set targets of number of gates to beat. Strong focus on abiding by rules in games.

LEARNING OBJECTIVE:

Can you improve your ability to defend a player?

RESOURCES:

Balls 1 between 2,
cones, bibs.

ASSESSMENT CRITERIA:

BRONZE

Children can mark a player by staying close in the defensive stance.

SILVER

Children can mark a player by staying close and shadowing movements causing them problems

GOLD

Children mark a player when they have and haven't got the ball in different ways to cause them problems often intercepting passes.

WARM UP

1 ball between 2. 1 x attacker dribbling ball around area. Partner to act as a 'Passive defender' (shadowing attacker with movements no steal) Repeat changing roles. Stretching/hand eye coordination tasks in pairs; Around the world (ball around hips) Figure of 8 (ball between legs), pushing on ball with partner stretching

MAIN ACTIVITY

TASK 1 - Discuss how to defended your partner, what did you do with your body to make it difficult for them to dribble into space? 1 v 1 Active Defenders - defenders to attempt to force attacker to double dribble or travel. Change roles on teachers whistle or when mistake made.

Discuss the importance of not fouling partner. Cylinder principle: The cylinder extends from the floor to the ceiling, allowing the player to jump upward. A player can occupy any cylinder not already occupied by the opponent. No one else is allowed to step or reach into this cylinder. A player must not extend his limbs or bend his body in a way that is not normal. If there is a breach of this principle that places the opponent at a disadvantage, the official may penalise it.

LEARNING OBJECTIVE:

Can you improve your ability to defend a player?

RESOURCES:

Balls 1 between 2,
cones, bibs.

TEACHING POINTS:

Stick with the player you've been given to mark.
Keep at least one step away from the attacker otherwise you could foul the attacker.

LESSON KEYWORDS:

Defending zones
Man to man
Foul

MAIN ACTIVITY

TASK 2 - Defending zones - Attackers 1 ball each, attackers attempt to get from 1 side of grid to another without a defender stealing their ball or forcing a mistake. This can be done in small groups or as a whole class moving through sections of a court. Once a defender has been passed they should move to next defender.

Jogging 1 behind the other in teams of 3 attempting to stay close together, call a number and that is the 1 who takes the lead, gradually getting slower.

TASK 3 - 3 v 3 – Man to man marking. Each player in the team of 3 has an individual number they must mark the same number on the opposing team. 1 v 1, 2 v 2 etc. Score by catching ball on end line.

Discuss cylinder principle to a partner when defending. Explain why a defensive performance is good/successful.

Made easier: set teams so children are marking others of a similar standard. Focus on a strong defensive stance.

Made harder: encourage jumping to intercept and block passes and shots. Encourage shielding ball when in possession.

LEARNING OBJECTIVE:

Can you develop shooting skills?

RESOURCES:

Balls 1 between 2,
cones, bibs, baskets/wall

ASSESSMENT CRITERIA:

BRONZE

Children remember some of the teaching points to perform a set shot but do not always hit their target.

SILVER

Children often use the correct amount of power when shooting and often hit the backboard/rim.

GOLD

Children consistently perform set shots using correct technique, often successful from different distances.

WARM UP

In pairs numbered 1 and 2. 1 child is attacker trying to get away from their partner the other is the defender trying to stay close. On teachers whistle can the defender touch the attackers shoulder? Use points to make it competitive.
Development:
Repeat face to face, front to back.
Stretching and mobilisation in pairs.

Lesson continued on next page

MAIN ACTIVITY

TASK 1 - Demonstrate 'Set shot' technique using BEEF teaching points;

B = Bend knees (feet shoulder width apart, shooting side, foot could be slightly in front)

E = Elbows – bend dominant elbow to make goose neck shape behind ball in front of face

E = Eyes on target (top corner of black square on back board)

F = Follow through – flick wrist as you release to backspin the ball. Wrist should finish flexed forwards.

Shooting ball up to partner to catch concentrating on teaching points.

TASK 2 - Shooting at targets: Using breeze blocks on walls of playground if not enough hoops.

LEARNING OBJECTIVE:

Can you develop shooting skills?

RESOURCES:

Balls 1 between 2, cones, bibs, baskets/wall

TEACHING POINTS:

Use BEEF teaching points.

When shooting aim for the top corner of square on the back board.

LESSON KEYWORDS:

Set shot
Attacking
Goose neck

MAIN ACTIVITY

TASK 3 - Development: Traffic light game – set up 3 x cones each at different distance from hoop. Red, amber, green (furthest away) Children to begin at green if they are successful to move back to amber and so on. If limited number of hoops; use netball posts/wall squares and rotate round so everyone gets a chance at using real hoop.

TASK 4 - Small sided games approx; 4v4, 5v5 using hoops or hoop players. Set shot must be performed with correct technique to score if using hoop players. Hoop players to stand on backline/end line of court and is allowed to move along end line only. If using hoops points awarded for hitting backboard and rim as well as a clean basket. Rotate so everyone has opportunity to play with hoops.

COOL DOWN

Gentle jogging, sidestepping, skipping between end lines on court.

Set shot – teaching points, how many can you name?
Discuss with teams what they are doing well and what they need to improve.

 **Made easier:** traffic light cones set closer to basket or wall traffic light

 **Made harder:** cones set further away from basket/wall.

LEARNING OBJECTIVE:

Can you identify specific things in a game and talk about how well they are being done?

RESOURCES:

Balls 1 between 2,
cones, bibs, baskets.

ASSESSMENT CRITERIA:

BRONZE

Children can look for specific things in a game and describe in simple terms how well they are being done

SILVER

Children can look for specific things in a game and explain how well they are being done

GOLD

Children can look for specific things in a game and explain how well they are being done using technical language

WARM UP

Basketball questions; recapping basketball rules with a partner 1 at a time – double dribble, travelling, fouls, ball out of court. Children to be organised into small teams depending on numbers approx. 5 v 5 and space and each given a number. Children to warm up and stretch in their teams, teacher to dictate odd or even numbers to lead.

MAIN ACTIVITY

TASK 1 - Round robin tournament in teams using baskets, netball posts or hoop players. Non doers or extra players to referee. Man to man marking, marking same number in opposing team. If using hoop player 3 v 3 or 4 v 4 on court, 1 player from each line to stand on end line as target player to shoot towards. Rotate hoop player.

LEARNING OBJECTIVE:

Can you identify specific things in a game and talk about how well they are being done?

RESOURCES:

Balls 1 between 2,
cones, bibs, baskets.

TEACHING POINTS:

Dribbling the ball is about pushing the ball in to the ground using fingers not a flat palm Use BEEF teaching points.
Keep eyes on the ball when receiving the ball

LESSON KEYWORDS:

Evaluate
Performance
Tactics
Communication

MAIN ACTIVITY

Handicap games as appropriate. Set mixed ability teams.

TASK 2 - Discuss with teams what they are doing well and what they need to improve as a team as a mini plenary before rotating teams to play different opponents.

 **Made easier:** extra person on team so not being marked by anyone.

 **Made harder:** make them a captain of a team and ask them to evaluate and improve their teams performance throughout tournament.

COOL DOWN

Children to jog on the spot on teacher call 'set' get down into sprint start position. On command 'go' start to jog on the spot again.

Discuss team performances against the following criteria:

1. Attacking skills and tactics
2. Defensive skills and tactics
3. Communication and team work
